ELECTION CANVASS

November 5, 2024 Primary Election

The certified count of registered voters in this election is 23,495; 16,516 ballots were cast including provisional ballots. The total turnout percentage, including provisionals, is 70.3%. The turnout for this election is comparable to previous presidential elections, but the total number of in-person early voters was considerably higher than any other election.

There were very few minor issues at some of the polling places that were quickly resolved; all voters were able to cast a ballot that was counted. Overall 60% of in-person voters chose to vote pre-printed paper ballots manually and 40% utilized the ballot marking devices (BMD) to select their choices and print their ballots. 8,547 registrants checked-in and voted at one of the 12 polling locations on Election Day. 5,508 registrants voted Early in-person during the 2 week early voting period. 2,190 advance ballots by mail were sent; 1,931 were returned including 102 of 110 federal services ballots. Statutes allow the deposit of advance by mail ballots at any polling place and for mailed ballots to be accepted if they are received by the Friday after the election if they are postmarked prior to 7 p.m. on Election Day; 98 ballots were deposited at polling places or were received after Election Day that met the requirements. These ballots were counted and added to the totals each day after the election.

There were 4 races that did not have a candidate filed that will be decided by write-in votes. The following individuals received the most votes by write-in so far and will likely being elected to the position: Joel Dunlavy for Burrton Township Trustee; Curtis Schmidt for Darlington Township Trustee; Steve Koerner for Darlington Township Treasurer; Charles Mueller for Halstead Township Treasurer. Statutes require that for local, state and federal races an affidavit of write-in candidacy must be filed to have write-in votes in the race attributed to the filed individual, all other names written in are considered unqualified or invalid. Becky Fields filed an affidavit of write-in candidacy for Harvey County Treasurer and received 576 of the 605 total write-in votes cast in that race; (see write-in detail report). The countywide question regarding the sale of alcohol without a food requirement passed by a wide margin.

There are 530 provisional ballots to canvass. 5 total advance ballots were returned unsigned, these voters were contacted in accordance with KSA 25-1124(b) to allow the voter to correct the deficiency prior to the canvass; all were corrected prior to election day and are included in results. KSA 25-3009 requires an audit of the election night results of one precinct prior to the canvass. On November 6 the Kansas Secretary of State office randomly selected the Federal, State and local races to be audited; on November 7 the precinct was randomly selected in my office. The Hesston City 1W-2P precinct was selected for the US President, KS Senate 31 and County Treasurer races. The ballots for the selected races/precincts were hand counted by a 4 member audit board on Friday, November 8; the results matched the election night results. Additionally the statute requires auditing 10% of the precincts in the county of any races that have an election night margin within 1%; no races met this criteria.

Included are the guidelines for counting or rejecting provisional ballots. The ballots are grouped according to situation with a header sheet explaining the situation and a recommendation for proceeding based on guidelines stated. You will then make the decision of whether to count or reject the ballots by motion, specifically stating the number of ballots to count or reject. The header sheet for each group of ballots will be marked in the spaces provided with the quantity of ballots to count or not count and will be passed down the table to be signed by each member of the canvassing board. The ballots will be passed to election staff and approved ballots will be separated from the envelopes to prepare for counting. Rejected ballots are not to be opened. The approved ballots will be scanned and added to current results and final results will be printed. Results will be announced and the Commissioners will sign the final election abstract.

h. Partial Provisional Ballots

Canvassers are required to count partial provisional ballots. If a voter cast a provisional ballot in a precinct other than the precinct in which the voter is registered but still within the same county, the canvassers should deem valid any votes for races or questions that are identical in both precincts. Any races or questions that do not appear on both precincts' ballots should not be counted.

For instance, votes for the offices of president, governor, other statewide races, constitutional amendment questions, countywide races and questions, and some state or county district offices will be valid because the races or questions were common to both ballots—the ballot the voter cast for the wrong precinct and the ballot intended for the precinct in which the voter was registered. [KSA 25-3002(b)(3)] This situation arises due to poll book error, election board worker error, voter error, or instances where the voter attempts to vote at a polling place closer to the voter's home than the polling place in the precinct where the voter is registered.

See the following chart for guidance on whether to count various types of challenged and provisional ballots.
